Note: This guide provides general instructions for setting up Android device to connect to campus Wi-Fi services. Based on varying device manufacturers and Android versions, user may encounter different configuration steps from the guide.

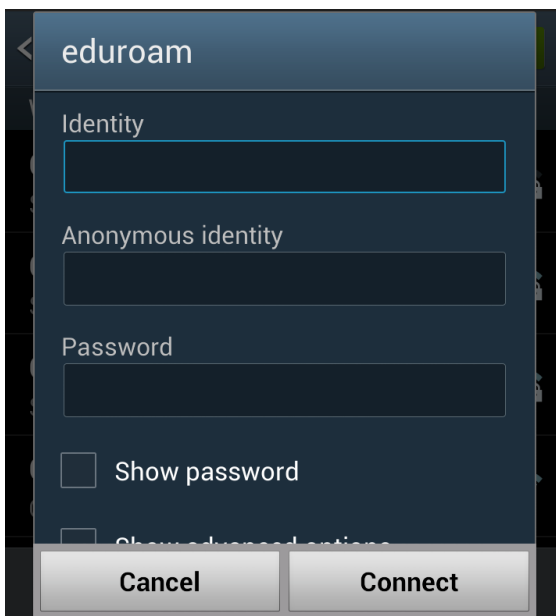

1. Go to “**Settings**” and select “**Wi-Fi settings**” under “**Wireless & networks**”

2. Change Wi-Fi option to “**On**” and the list of available networks is shown

- 3.1. Select “**eduroam**”
- 3.2. Select the following settings
EAP Method: **PEAP**
Phase 2 authentication: **MSCHAPv2**

- 4.1. Enter your **userID** plus **@cpce.hk** (i.e. **userID@cpce.hk**) in the “**Identity**” field
Enter your **portal password** in the “**Password**” field
- 4.2. Press “**Connect**”
5. A “**Connected**” status will be shown if your device is successfully joined to the Wi-Fi
