Assistant Information Technology Officer (Programming) (Ref. 100709-01)

Qualifications

Applicants should have:

(a) a recognised degree in Information Technology, Computing Studies or a related discipline;
(b) two years’ relevant post-qualification experience; and
(c) good interpersonal and communication skills.

Duties

The appointee will be required to:

(a) assist in analysing user requirements and performing system design;
(b) perform system development, database design, testing, implementation and related support tasks;
(c) carry out maintenance of servers and database systems, and protection of programs; and
(d) perform any other duties as assigned.

Preference will be given to those with knowledge of Oracle APEX, PL/SQL, Redhat Linux, JSP/JAVA, iReport, WebLogic, PHP, C#/NET, Ajax, MS SQL Server and MySQL programming.

The appointee will be required to work on shift duties in evenings. He/she may be required to take up assignments outside Hong Kong occasionally.

Shortlisted candidates may be invited to sit for a written test.

Remuneration

Salary offered will be commensurate with qualifications and experience.
