

Phasing Out Bottled Water on Campus

Since January 2018, The Hong Kong Polytechnic University-affiliated College of Professional and Continuing Education (PolyU CPCE) has discontinued the sale of bottled water (non-sparkling, unflavored drinking water in any single-serving plastic bottle of less than 1 litre) in vending machines in PolyU Hung Hom Bay Campus and PolyU West Kowloon Campus. Single-serving bottled water (below 1 litre) will not be provided in PolyU CPCE's activities and events. PolyU Finance Office will no longer process any reimbursement claims on purchase orders or expenses on related purchases as documented in their Expense Payment Procedures.
