

Research Centre for Green Business (RCGB)

Research Workshop on LSEG - Machine Readable News

Date: 22 April 2025 (Tuesday)
Time: 3:00 p.m. - 4:00 p.m.
Mode: Online via MS Teams
Language: English

Mr. Jayden ZHANG

**Data Scientist
LSEG**

Mr Zhang will introduce MRN (Machine Readable News) and provide quick product demo and use case during the workshop. MRN transforms real-time news into a feed your machine understands, you'll discover a data universe built around your business. Within milliseconds, the news solution applies natural language processing (NLP) to deliver sophisticated news analytics; whether you're looking to inform event-based trading on economic releases and exclusive M&A news breaks, optimise quantitative investment strategies using sentiment analysis or conduct market surveillance based on raw news and associated metadata. Plug-and-play search and symbology APIs strip out the noise and help you get to what you need fast, at low cost.
